READ THESE FEW WORDS ABOUT RELIABLE SEEDS

From Good Seeds only can good crops be grown, yet a great many contingencies may arise to prevent the best seeds from giving satisfaction, and for all these reasons we cannot, of course, guarantee or be responsible for a crop, as success is dependent upon natural causes which are beyond human control. Therefore, we do not warrant in any way, express or implied, the contents, or the description, quality, productiveness, or any other matter of any Bulbs, Seeds or Plants sold by us, and we will not in any way be responsible for the crop. If the purchaser does not accept these goods on above terms, no sale is made thereof, and he must return them at once, and the money will be refunded. Subject to above conditions we make this sale, at the moderate prices at which we sell our goods. this sale, at the moderate prices at which we sell our goods.

OUR BIG NEW CATALOGUE FOR 1923 will be issued about the first of the year; if you fail to receive your copy in proper season, kindly let us know.

RESURRECTION PLANT

Most Unique Novelty A Marvel of Plant Life

This peculiar plant is found among the pines and cedars of Palestine. It is a ball of of Palestine. It is a ball of tightly folded leaflets, dry and apparently dead. But a transformation takes place once it is dropped into a bowl of is dropped into a bowl of water, for in a short time there is a great, loose, expanded rosette of fine fernike leaves, both odd and beautiful. This can be repeated many times, the plant curling tightly together when dry, expanding when soaked. 20c each; 3 for 55c; postpaid.

Mammoth Show Hyacinths

Buckbee's Miniature or Pan Hyacinths

Buckbee's "Full of Life" MINIATURE CR PAN HYACINTHS A Rare Novelty from Holland

A class of Hyacinths with comparatively small bulbs, and as they are usually compact growers, can be more cheaply grown than the larger bulbed class. While the spikes scarcely average as heavy as other Hyacinths, the difference is small, and many specimens are fully equal to the best of the latter. They are splendid for either garden or pots, while for cutting they are the best of all. We offer the most desirable colors and the flowers are large and wax-like, and the spikes airy and graceful.

Pure White Slush White Separate colors as follows; Red

Rose Dark Blue Price of Pan Hyacinths 3 for 20c; 70c doz.; \$5.00 per 100. Light Blue Yellow

Buckbee's "Full of Life" ROMAN HYACINTHS

L'Immaculee-The Best Pure White Single Early Tulip

BUCKBEE'S "FULL OF LIFE"

TULIPS

The people are appreciating the beauty of Tulips more and more every year. There is so little trouble in bringing them to perfection, whether planted out or in pots, and they are so valuable that no garden or window should be without them. For gorgeous colors and brilliant effects planted in beds and borders the Tulip stands unrivaled. There are no bulbs which make such a rich display of blossoms with so little care and cultivation. As with most flowers, single varieties succeed better than double when forced. For this purpose they should be planted as early as possible. Although there are many hundreds of varieties of single Tulips, we have selected only those which will give the best results, and which show the most desirable colors and shades. The following can be depended upon for general satisfaction.

Buckbee's Best Named Single Early Tulips

The Single Early Tulips are grand for outdoor bedding and for Winter blooming in pots. The following are the very best kinds:

Artus—Bright scarlet; dwarf, good bedder.

Cardinal's Hat—Dark brown red. Very select.

Chrysolora—Pure golden yellow; fine for forcing or bedding.

Crimson King—Clear bright intense crimson scarlet color.

Duchesse de Parma—Bright orange scarlet—bordered yellow.

Keizerkroon—Crimson scarlet; edged bright yellow. Large showy flower.

La Reine—White, slightly shaded rose. The most popular white tulip.

L'Immaculee—Pure white, large flower, sure bloomer.

Pottebaker White—Exquisite elegant flower of large size.

Rosamondi—Rose and white, beautifully blended.

Rose Gris de Lin—Blush white, edged delicate rose.

Striped—A delightful combination of colors.

Yellow Prince—Golden yellow and often sweet scented.

Price any of the above desirable Single Early Tulips 3 for 20c; 70c doz.; \$4.50 per 106.

Buckbee's "Full of Life" Mixed Single Early-Flowering Tulips

Selected named varieties carefully mixed together in such proportion as will give a beautiful array of colors. All blooming at the same time. Price, 6 for 35c; 60c doz.; \$3.75 per 100.

Good Mixed Single Early Tulip

The sorts usually sold by dealers; good value for the money, but not to be compared with our "Full of Life" mixture. 50c doz.; \$2.75 per 100.

Buckbee's Striped Single Early Tulip

DOUBLE EARLY ULIPS

Double Tulips produce very large double flowers, many of which are as large and showy as a Paeony. The bright colors of the large double blossoms contrast double blossoms contrast splendidly and make a charming display. They are beautifully adapted for beds on the lawn, in the garden and for mingling in clumps of half a dozen or more around the edges of shrubbery. They are exceedingly effective. The early sorts do splendidly when grown in blooming. splendidly when grown in pots for winter blooming, but must be forced much slower than Single Early but must slower than Single by keeping them cooler.

BUCKBEE'S "FULL OF LIFE" Best Named Double

EARLY TULIPS

The following varieties are the most highly improved of the Double Tulips. The colors are desirable and flowers beautiful.

forcing.

Salvator Rosa—Splendid deep rose pink and very double.
Scarlet King—Pure deep red color. One of the newest.
Striped—A delightful combination of colors.
Toreador—Orange scarlet color. Very distinct and beautiful.
Tournesol-Red bordered yellow. Large flower, easy to grow.
Yellow Rose—Large double yellow; early and an unusual color.
Price of the above Double Early Tulips, 3 for 20c; 75c doz.; \$5.00 per 100.

New Double Tulip—Electra

Offered last year for the first time.

This is the finest Double Red or Scarlet Tulip we have ever seen Our Holland grower has been working on this novelty for years, and we are now able to offer it for the first time

Faucy Select Bulbs 15c each; \$1.50 doz.; \$10.00 per 109.

Buckbee's "Full of Life" Mixed Double Early Tulips

The best varieties of Double Early Tulips are comprised in this finest of all tures. You will make no mistake by ordering this assortment. Selected Bulbs, mixtures. 6 for 35c; 65c per doz; \$4.25 per 100.

Good Mixed Double Early Tulips

Selected varieties mixed carefully together in such proportion as will give a beautiful array of colors. All blooming at the same time. Price, 55c per doz.; \$3.00 per 100.

PARROT OR DRAGON TULIPS

FOR THE OPEN GROUND ONLY

The most beautiful and interesting class of Tulips, which should be in every garden. The flowers are very large and perfect in shape, the petals are corrugated and toothed, while color is the most striking combination of crimson and golden yellow, streaked and edged with green, resembling the plumage of a parrot, whence these Tulips derive their name. A bed of these their name are gargeous display.

May Flowering Tuips

their name. A bed of these makes a gorgeous display, paying hundred-fold for any trouble that may be bestowed upon them.

Price, Select Bulbs, 6 for 40c; 70c doz.; \$4.50 per 100.

Late or May Flowering Tulips

These Tulips are quite distinct from the early flowering kinds—coming later, they extend the blooming season two or three weeks longer, and are usually at their best about Decoration Day. They are exceedingly hardy and therefore excellent for planting in the perennial border or among the shrubbery, where they remain undisturbed for years. The colors and markings of late Tulips are truly magnificent.

Double Late Mixed—Desirable colors and markings in assortment. Price 6 for 35c; 35c doz.; \$4.25 per 100.

Single Late Mixed—Everyone should have at least a dozen of these beauties. All the best colors assorted. Price 6 for 35c; 60c doz.; \$3.75 per 100.

Marcella

DARWIN TULIPS

These wonderful flowers are so effective when grown in separate colors that we are listing a few of the best varieties as well as mixtures.

Maiden's Blush—The prevailing color of this is a light colored ground, almost white, with rose stripes. Many are also beautifully feathered. Price 3 for 20c; 70c doz.; \$5.00 per 100.

Marcella—Another beautiful and unusual flower, which usually comes in a combination of scarlet and blue on the same flower. Price 3 for 20c; 70c doz.; \$5.00 per 100.

Painted Lady—A wonderfully colored flower, being white with a red border. The only one we have ever seen of these colors. Price 3 for 20c; 70c doz.; \$5.00 per 100.

Picotee—Waxy white, pink edged and of elegant form. Fine for cut flowers. Price 3 for 20c; 70c doz.; \$5.00 per 100.

President Taft—An unusually large flower of terra cotta color, blended with violet. Quite sweet scented. Price 3 for 20c; 70c doz.; \$5.00 per 100.

Selected Mixed—Over 30 varieties. A showy mixture of colors and markings. Price 6 for 40c; 65c doz.; \$4.25 per 100.

The Polyanthus varieties of Narcissus are not only beautiful but deliciously sweet-scented, and of the easiest culture; very free-flowering, and suitable for window garden. conservatory or garden, continuing long in bloom. They bear tall spikes of bloom, bearing from six to twenty-flow flowers each. The pure white petals and gold cups of some varieties, the yellow with deep orange cups of others and the fine whites and yellows render them great favorites. These are considered the best of all Narcissus for pot culture, and by many esteemed the most beautiful. Choicest

esteemed the most beautiful. Choicest mixed colors—2 for 15c; 75c doz.; postpaid.

By express, purchaser's expense, \$5.25 per 100.

Giant "Paper White" Narcissus

A Bulb Which Everyone Should Plant

This large flowering type is an improvement over the ordinary "Paper White." It is more vigorous and earlier, producing purest snow-white flowers of large size and good substance in large trusses, and is more largely used for early forcing more largely used for early forcing for cut flowers than any other bulb, being flowered without difficulty by Christmas, and if required even much earlier. Paper White Narcissus do splendidly when grown in bowls of water and pebbles or moss the same as Chinese Narcissus. Bulbs, 3 for 35c; \$1.30 doz.; pactagid postpaid.

WINTER-BLOOMING FREESIAS

Freesia, Purity

NEW FREESIA, PURITY

Possesses Rare Delicate Beauty and Sweet Fragrance

One of the very finest of recent Bulb Novelties. Flowers of enormous size, with thick, heavy, waxy petals that last nearly two weeks, even when cut. Flower pure snow white, save one tiny yellow spot in throat, and of wonderfully beautiful shape, petals being large, rounded and open. Unlike all other Freesias. Grand for winter-blooming in pots. Large bulbs, 3 for 15c; 12 for 50c; 83.75 per 100, postpaid.

FREESIA, REFRACTA ALBA

A distinct and greatly improved type producing large sprays of purest snow-white flowers of immense size which are deliciously fragrant; it is very free blooming and of great value for forcing for cut flowers. The foliage is narrower and less coarse than that of ordinary strains. 3 for 12c; 45c doz.; \$3.25 per 100, postpaid.

FREESIA, RAINBOW HYBRIDS

Strikingly beautiful, sweet-scented flowers in many delicate colors. 3 for 25c; doz., 85c; 100 for 85.75, postraid.

A new class of bulbs splendidly adapted to winter blooming in the window. They are always sure to succeed and bloom elegantly for anyone in any situation and the great beauty and fragrance of the flowers are everywhere admired. The blossoms or buds when cut and placed in vases of water will keep perfect two weeks. In pots they commence blooming early and continue for a long time, the stems branching freely and producing several clus-ters of bloom in succession. Four to six bulbs can be planted in a 5-inch pot. They commence growth immediately after planting and need not be put away to form roots like Hyacinths, unless it is more convenient to do so. Planting successively from September to November will give a succession of bloom through the Winter. a succession through the Winter. abundant bloom, delicate beauty and charming fragrance is a delight to all. They are inval-uable for bouquets, as they are deliciously fragrant. The bulbs increase each year, so that customers who buy a few dozen may soon have many hundred.

A Valuable New BOOK of Practical Information HOW TO GROW SEEDS AND FLOWERS

A complete guide for the house and garden, profusely illustrated, Price 50c, postpaid, or we will send a copy FREE with an order amounting to \$1.50 or upwards, if requested on the order.

Freesia, Rainbow Hybrids

Bermuda Easter Lily

LILIUM CANDIDUM.

The Peerless White Lily, Queen of the Garden. Also called Annunciation or Madonna Lily. Although old and common, this is still one of the finest single clear white flowers in cultivation, and no garden, however small, should be without at least one plant of this beautiful variety. It is hardy and should be planted in the Fall.

Extra Select Bulbs, 35c each; 3 for \$1.00.

CHINESE SACRED LILIES

The Chinese Lilies are usually grown in The Chinese Lilies are usually grown in bowls or dishes of water. Put an inch or two of sand and gravel in the dish in which they are to be grown, set the bulbs on this and put enough pebbles around them to keep them from falling over; then fill the dish with water and set in a dark place for a few days, bring them to the light when the roots have started freely.

Each, 20c, or 3 for 70c, postpaid.

BERMUDA EASTER LILY

(Lilium Harrisii)

The Grandest Winter-Flowering Plant in Cultivation

Is of the Easiest Culture, Blooming in Wonderful Abundance.
The flowers are delightfully fragrant, pure waxy white, of great substance, and if cut as soon as they open, or partially open, they can be kept with stems in water, for two weeks.

A succession of bloom can be kept

A succession of bloom can be kept up from November to May, by bringing in a few pots of bulbs from cold frames at intervals throughout the Winter.

The quantity of bloom produced is marvelous; the average production of selected bulbs, even when forced, is from 4 to 6 flowers, and of mammoth bulbs 8 to 12 flowers. Blooming plants in pots form typical Easter offerings and presents for decoration of the window, table, house or church. Nothing is more appropriately beautiful and highly appreciated. Thousands upon thousands are sold in the large cities every Winter for this purpose.

Extra Selected Bulbs—45c each; 3 for \$1.25.

3 for \$1.25.

Mammoth Bulbs-55c each; 3 for

JAPANESE EASTER LILIES

Beautiful Flower. True Type. About two weeks later than the Bermuda

This improved type of the monknown Lilium Longiflorum, also called the "Easter or St. Joseph's Lily," comes from the Island of Formosa. The plants are of healthy strong growth—about 3 feet high and produce beautiful snow-white trumpet-shaped flowers, 6 to 8 inches long. It is perfectly hardy (if given a little protection) and a splendid garden lily blooming in the open in June and July. This Lily is also a very important winter flowering very important winter flowering This improved type of the well nown Lilium Longiflorum, also June and July. This Lily is also a very important winter flowering type, thousands of the bulbs being imported for florists and others who "force" them as pot plants and for cut flowers. It is not quite as early as Lilium Harrisii—but for "bringing in" soon after Christmas it is well adapted. Fine Select Bulbs, 40c each; 3 for \$115. each; 3 for \$1.15.

Rare Tropical **FRUITS**

For Pot Culture

These make the most interesting pot plants for the house and are the easithe house and are the easiest of all pot plants to grow. Some are handsome in foliage, in blossoms, and all showy, interesting and luscious in fruit, and some of them fruit the greater part of the year.

SURINAM **DWARF** CHERRY

Ornamental as well as useful, both in flower and fruit; and on account of its dwarf growth can be grown in pots if desired like the Otaheite Orange. The fruits are rich bright The rruits are from bright red in color and most delicious flavor. A most desirable plant that will interest the "Shutins" for house culture.

Strong plants, 45c each; 2 for 85c; postpaid.

STRAWBERRY GUAVA

Another luscious tropical fruit and charming house plant, rivaling the famous Otaleite Orange in beauty. It is a nice, clean grower, with thick glossy green leaves, and, like the orange, it bears both flowers and fruit at the same time. The flowers are pure white and delightfully fragrant. The fruit is large, nearly the size of a walnut, and of a beautiful reddish color; the flavor is delicious, sweet and spicy, and yet rich and delicate. It is very rare and interesting. The plant begins to bloom and bear fruit while quite is very rare and interesting. The plant begins to bloom and bear fruit while quite small. Fruit makes the highly "Guava Jelly."

Strong Plants, 45c each; 2 for 85c; postpaid.

SMYRNA FIG

A dwarf variety imported from the far East, of compact, hardy growth, making little wood. As a pot or tub plant it is extremely valuable either indoors or outextremely valuable either indoors or outside. It will winter safely in an ordinary cellar, or it can be allowed to harden off with a few frosts in the early Fall and then brought indoors for growing during the Winter. The fruit is of medium size, very sweet and almost seedless. For the South it is nearer a perpetual bearer than any other variety of Figs, and will produce three crops in a season. The ideal Fig for pot culture in the North, and it is one of the rare plants that you should not miss getting. Strong plants on own roots, grown from fruiting wood which will commence to bear at once. mence to bear at once.

Strong Plants, 45c each; 2 for 85c; post-

paid.

POMEGRANATE

A beautiful, shrubby plant of symmetrical growth, equally good for bedding or pot culture in the house. The blossoms are of a beautiful orange scarlet color. It is quite hardy in the South, remaining uninjured there in open ground in Winter; in the North the plant may be stored in the cellar to protect it against severe frost, Strong Plants, 45c each; 2 for 85c: postpaid.

BUCKBEE'S NEW EVERBEARING PONDEROSA LEMON

A Lemon that can be as easily A Lemon that can be as easily grown in a pot as a Geranium and which produces fruit weighing from one to three pounds each. These enormous fruits are borne on plants one to two feet high, growing in pots. It is everbearing and its fruit is delicious for lemonade and culinary purposes. The enormous Lemons have a thin rind and are full of acid juice. Will thrive in any good soil, either indoors or out. One of the very finest plants for house culture. ture.

Our price is for the very best plants. Select, postpaid, 25c to 35c each. Extra large plants, by express, \$1.50 to \$2.50

OTAHEITE ORANGE

An extra fine pot plant, with glossy leaves, the true fragrant Orange blooms and abundant little bright Oranges that will hang on the little bush like balls of gold for six months after they are ripe. They will bloom and fruit in a two-inch pot; and we have seen a plant in a common window that was but 15 inches high and had 23 oranges on it. With good sunlight they are never out of fruit from one year's end to another, and at least two-thirds of the time are in flower also. The fruit is very sweet and handsome. In beauty, grace and fragrance there is nothing like it. Fine plants for blooming and fruiting soon.

Nice young thrifty plants, postpaid, 25c to 35c each. Extra large plants, by express, \$1.50 each.

New Roosevelt Fern

FERNS—Rare and Beautiful

NEW ROOSEVELT FERN

The Greatest Fern of the Age

general_characteristics it resembles the Boston Fern, but it produces many more fronds, making it a bushier and handsomer plant; then the pinnae are undulated, giving it a pronounced wavy effect seen in no other fern.

Fine young plants 25c, 35c and 45c each, postpaid.

Larger plants \$1.00, \$2.00, \$3.00 each.

Larger plants \$1.00, \$2.00, \$3.00 each, by express, not prepaid.

THE BOSTON FERN

Nephrolepis Bostoniensis

This is one of the old standbys, and still one of the best. Its long, graceful drooping fronds often attain a length of 5 or 6 feet in a single year.

Fine young plants 20c, 30c and 40c each,

postpaid.

Larger plants \$1.00, \$1.50, \$2.00 each, by express, not prepaid.

THE OSTRICH PLUME FERN

Nephrolepis Piersonii

strong, vigorous grower, resembling Boston Fern somewhat, but the fronds the Boston much heavier and more feathery, and arch over in a most graceful manner, showing two shades of green and producing a lovely mossy effect, which adds greatly to its beauty.

Fine young plants 30c, 40c and 50c each, postpaid.

Larger plants, \$1.00, \$2.00, \$3.00 each, by express, not prepaid.

THE NEW CRESTED FERN

Whitmanii

We think this the most popular Fern. We think this the most popular Fern. Rather dwarf in growth, but graceful, very compact, dense and feathers Each frond or branch has a double row of perfect little fronds set at right angles to the mid rib, and so thick they seem almost crowded. It is a healthy, vigorous grower, constantly unfolding fresh fronds of light green that contrast exquisitely with the deep green of the older fronds. It is somewhat like Roosevelt, but decidedly more fluffy, more delicate and beautiful. Eine young plants 25c, 35c and 45c each, postpaid. Larger plants \$1.00, \$2.00, \$3.00 each, by express not prepaid. Rather dwarf

prepaid.

NEWPORT PARLOR FERN

Resembles the Boston in some respects, but grows more erect, has shorter, narrower fronds and makes three times as many of them. Thrives nicely in parlor or living room, requires very little attention. Fine young plants 25c to 35c each, postpaid.

Larger plants \$1.00, \$2.00, \$3.00 each, by express, not

prepaid.

BUCKBEE'S LACE FERN

The rare and delicate beauty of this plant can scarcely be shown by a picture or conveyed by a description. The bright green foliage of very delicate texture falls gracefully, giving it a style and air that cannot be surpassed. No more beautiful decorative plant has ever been produced. As a house plant it is deservedly popular, due to the fact that it will thrive under almost all conditions.

Fine young plants 25c to 35c each, post-Fine young plants 25c to 35c each, post-

paid.

Larger plants, \$1.00 to \$1.50 each, by express, not prepaid.

BUCKBEE'S FEATHER FERN

Grows freely the whole year round, producing sprays 4 to 5 feet long of fresh, green feathery foliage. Valuable for cutting for fine cut flower work, more particularly in use with large roses. Grown in suspended pots it makes a very pretty decorative house plant.

Fine young plants 25c to 35c each, postpaid.

DECORATIVE HOUSE PLANTS

The Beautiful Tiger House

THE BEAUTIFUL TIGER HOUSE PLANT

Sanseveria Zealanica

A New Decorative Plant of Great Value A New Decorative Flant of Great value
There is scarcely a decorative plant
listed that is more striking in foliage
and habit than this, and certainly none
other that will stand as much downright neglect and hardship. Nothing
but frost or a continual drenching with
water has terrors for it. It will grow in
a dark hall, a cool bedroom, or stand on
the mantel in a heated sitting room. It
will stand gas and dust, and will go for the mantel in a heated sitting room. It will stand gas and dust, and will go for months without a drop of water, yet remain as thrifty as ever. Singularly beautiful, as well as easily grown. Erect, rigid, sword-like leaves, in some old specimens reaching a length of from 4 to 6 feet. The leaves are thick and fleshy, a dark green color, with clouded bars of white. In May and June it sends up long plumy flower spikes, which, in their soft feathery whiteness, remind one of an Agave's flower. Fine plants, postpaid, 25c each; 3 for 70c. Larger plants by express, not prepaid, \$1.00 to \$1.50 each.

CROWN OF THORNS

The Great Biblical Plant

On the Wild Rocky Hills of Judea this emblematic plant is found. Very peculiar, thorny, with a few bright green leaves and an abundance of light rose blossoms. Easy to grow, can be trained to assume any desired shape. Fine plants 25c each; 3 for 70c; postpaid.

Australian Silk Tree

THE AUSTRALIAN SILK TREE

Magnificent Decorative House Plant

A magnificent plant for decorative purposes, of rapid easy growth, finely cut foliage, rivaling a rare fern. The young, growing leaves are a light brown color, the tips being covered with a soft down, closely resembling raw silk, hence the name "Silk Oak." In its native place it attains magnificent proportions and produces an objection. nificent proportions and produces an abundance of bright, orange-colored flowers. 20c each; 3 for 55c; postpaid.

Crown of Thorns

ROYAL PURPLE PLANT

-The leaves are beautifully varie stroniantnes—The leaves are beautifully varie-gated, with a deep metallic purple, shaded with dark rose and margined light green. It is par-ticularly fine for beds and border and is entirely distinct from any other bedding plant. Grown as a pot plant in the house it is very bright and effective. 20e each; 3 for 55c; postpaid.

BRAZILIAN PLUME PLANT

A native of Brazil, of the easiest possible culture, and does well in all kinds of soil, and in any situation. It is a strong, rapid grower, and throws long shoots, each of which is tipped with beautiful pink, plume-like flowers, the ends of every petal drooping in a most charming manner. It is a grand pot plant, commencing to flower when the plants are very small, and blooming profusely for several months out of the year. 25c each; 3 for 70c.

THE BEST GRAPES

Grapes can be planted in the Fall with excellent results. In fact, a year's time can be gained by planting now. The two varieties most generally grown are

two varieties most generally grown are given below.

CONCORD—The standard black blue. Vigorous, hardy and a splendid bearer. Strong two-year-old plants 30c each; \$3.00 per dozen; postpaid.

NIAGARA—The best white. A beautiful grape and very prolific. Strong two-year-old plants 35c each; \$3.50 per dozen; postpaid.

per dozen; postpaid.

THE STRAWBERRY GERANIUM

One of the handsomest plants imaginable, a gem of many One of the handsomest plants imaginable, a gem of many colors, exceedingly rare and beautiful. Leaves nearly round, and striped freely with silver bands; blooms white, of great beauty and borne in spikes nearly 12 inches high; of easiest growth. Adapted for hanging baskets, vases, etc. Will stand neglect and mistreatment. 20c each; 3 for 55c postnaid. for 55c; postpaid.

Campanula

CONDENSED LIST OF STANDARD VARIETIES

CONDENSED LIST OF STANDARD VARIETIES

By sowing hardy varieties of flowers during August and September a brilliant display of flowers can be secured at a small cost quite early in Spring at a time when usually the garden is comparatively bare, and these plants from Autumn sown seeds generally become larger and more robust and flower more profusely than if sown in Spring. Perennial flowers especially should be sown in Fall as most of them will not bloom the first year if sown in Spring, but if sown early enough, not later than October, they can make good plants before frost, and will bloom freely the following year.

The varieties marked with a cross (x) are perennials.

The varieties marked with a cross (x) are perennials. (See general catalog for description of varieties.)

BUCKBEE'S "FULL OF LIFE"

BEAUTIFUL PANSIES

FOR AUTUMN SOWING

To have the earliest flowers, Pansy seeds should be sown in the fall any time from August to November. They are quite hardy and all the Winter protection they need is a little brush or straw to keep the snow from pressing too heavily upon them. If you want Pansy blooms early in the Spring, TRY THIS

PLAN.

Buckbee's Mammoth Jubilee Mixture

BUCKBEE'S MAMMOTH JUBILEE MIXTURE

Although we have always had splendid assortments of immense Giant Flowered Pansies, we this year have in our Mammoth Jubilee Mixture the grandest collection of beautiful Pansies ever seen. All are of immense size. Many are so deeply fluted and frilled as to appear almost double, while others have variations and markings that cannot be described. Thousands of our customers have already grown this wonderful blend. Our new stock seed is now ready and our Jubilee Mixture this Fall is even better than before. Large packet 15c; 2 pkts. 25c; ½ oz. 95c.

BUCKBEE'S GIANT FLOWERING MIXED

In this magnificent mixture of giant flowering Pansies the colorings are wonderfully rich and varied; every shade and tint of rose, canary-yellow, black, white, cream, lavender, garnet, sky-blue and orange are produced in endless variations and striking combinations, while others have silvery grounds heavily blotched at the base of each petal with a dark rich shade. The enormous flowers are of thick velvety texture, perfect form, and borne on long stems well above the foliage. The compact rounded plants are of sturdy habit and deep rooted, so that they bear the gigantic flowers profusely and continuously. Pkt. 10c; ½ oz. 90c.

BUCKBEE'S MAMMOTH SUNRISE MIXTURE
This splendid mixture is a blended combination of mammoth flowering Pansies. It contains all colors and will prove a delightful surprise in regard to the great size and rich and varied colorings of its flowers. Very popular. Pkt. 10c; 1/8 oz. 75c.

BUCKBEE'S WORLD'S FAIR PRIZE MIXED

This mixture was awarded Grand Prize Medal at the World's Fair. It is an exceedingly fine mixture, producing flowers of rare beauty in both colorings and markings. Pkt. 7c; 1/8 oz. 55c.

The Perfume of the Violet. The Beauty of the Pansy Violet (viola cornuta) the result of crossing the Pansy (viola tri-color) with the Sweet Violet (viola cornuta) the resulting hybrids, in addition to retaining the delightful Violet perfume, produce the most beautiful Pansy-like blossoms, 2 to 2½ inches across, of great substance and of an endless variety of colors. Mixed. Pkt. 8c; ½ oz. 60c.

Full of Life" Alfalfa See the Wonderful Root Growth

Buckbee's "FULL of LIFE" LFALE

Northern Grown, Re-Cleaned, Government Inspected Seed

THE OUEEN OF FORAGE **PLANTS**

As a highly nutritious feed for horses, cat-As a lighty flutritious feet and holises, cattle, sheep, hogs and poultry—as pasture—as a means of giving fertility to the soil—Alfalfa has within a few years succeeded wonderfully in most States of the Union and ranks higher than Timothy and other Clovers in feeding value in feeding value.

ERE IS NO STATE IN THE UNION WHERE IT CANNOT BE SUCCESS-FULLY GROWN

GRIMM OR EVERLASTING ALFALFA-This is the Queen of all the Alfalfas, the hardiest, the most lasting most productive, having survived Winters that killed out many fields of other varieties of Alfalfa. We offer a limited amount of the very finest grade Northern Grown "Full of Life"

est grade Northern Grown "Full of Life" seed. Price, postpaid, pkt. 10c; lb. 65c.

HARDY NORTHERN—Montana is producing a very fine grade of Alfalfa. The seed is usually exceptionally large and of high germination. Our seed is obtained in those sections where plants have endured the extreme cold of Winter and thrive at high altitudes. We have been able to secure a reasonable quantity of exceedingly bright seed. Postpaid nkt. 10c: lb. 45c: 3 lbs. Postpaid, pkt. 10e; lb. 45e; 3 lbs. seed. \$1.30.

Burr Clover

An annual Clover for the South; matures in May. A most valuable Winter grazing crop, growing luxuriantly all through the Winter. After once being seeded, it re-seeds itself and improves in growth each succeeding year. It is admirably adapted for growing with Bermuda Grass; the combination of the two makes a splendid all-the-year-round pasturage. Sow 15 pounds per acre from July to October. pasturage. Sow July to October.

Price, hulled seed, 1b. 45c; 3 lbs. \$1.30. postpaid, pkt. 10c:

Japan Clover or Lespedeza See Inclosed Field Seed Price List for

A valuable perennial Clover for the South. Stands excessive drought and is particularly suitable for wornout soils, waste lands and woodland pasture, growing well in the shade. Especially valuable for pasture and green fertilizer. On good and moist soils it grows 20 inches high and can be cut for hay. It is of low spreading growth on poor soils, furnishing pasture from June till frost. When once established, it usurps the land, driving out all wild grasses and weeds, but can be easily eradicated. Its large roots, when decaying, leave the soil porous and greatly enriched. Postpaid, pkt. 10c; lb, 50c; 3 lbs. \$1.45.

Crimson Clover (Giant Incarnate)
Valuable for Pasture, Soiling, Hay, But Especially
for Plowing Under to Restore Wornout Soils

lb. 50c; 3 lbs. \$1.45.

Crimson Clover forms upright branching plants, 2 to 3 feet high, blooms a month earlier plants, 2 to 5 leet nigh, blooms a month earner than Red Clover. It roots very deeply and is a bountiful provider of nitrogen. It grows most fuxuriantly on fertile loam, yet it will thrive better on thinner and poorer soil than Red Clover. It is more efficient for green manuring than the latter. A plowed under crop of Crimson Clover is equivalent to 20 tons of stable manure per acre.

son Clover is equivalent to 20 tons of stable manure per acre.

It is one of the best clovers for use in the silo, yielding up to 20 tons of green forage per acre. For soiling and for pasture it is frequently sown with Rape, Winter Rye or Vetches. Sow at the rate of 15 pounds per acre. Price, postpaid, pkt. 10c; lb. 35c; 3 lbs. \$1.00.

Buckbee's "Full of Life" Grasses

Bromus Inermis

TIMOTHY

As a crop for hay, Timothy is probably unsurpassed by any other grass. It is greatly relished by all kinds of stock, especially horses. It yields more nutritive matter than any other grass or forage plant. It is well suited for a permanent pasture, as it will hold its own for several years, before running out. Well adapted to early Spring grazing, as it starts up quickly in the Spring, and in favorable Fall weather can be pastured in the Autumn as well. Our "Full of Life" Brand will stand the test of any Pure Seed Law in the world. Will range better than 98% purity and 95% germination. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

BROMUS INERMIS

Acknowledged King of the Deserts and Dry Sandy Soils. Makes lots of early Spring and Late Fall Feed, besides Good Crop of Hay.

This highly useful grass grows to a height of 3 feet and sometimes 5 feet. A native of Hungary. It has done remarkably well in America, especially on dry, arid soils. A hardy perennial, it is well adapted to cold climates and exposed situations. Produces satisfactory crops on land dop por for Timothy and other grasses. Tried widely, it has been endorsed everywhere, and is pronounced a great boon to farmed because IT PAYS ON ANY GROUND. Use 20 pounds to the acre. It may be sowr in the Fall with Winter Wheat. Postpaid, pkt. 10c; ib. 35c; 3 lbs. \$1.00.

ORCHARD GRASS

A valuable grass for pasture or hay land, and on account of its earliness is very well adapted for a permanent pasture. It furnishes the first green grass in the Spring and until late in the Fall. When grown for hay, more than one crop can be obtained in one season, and when only one crop is cut the aftergrowth is very heavy and gives splendid and rich pasture till late in the Fall. It is well suited for shady places, such as orchards and groves. Crows on all kinds of land, but does best on deep, rich sandy loam or clay soils. Buckbee's "Full of Life" Brand, the best obtainable. Postpaid, pkt. 10c; 1b. 40c; 3 lbs. \$1.15.

ENGLISH OR PERENNIAL RYE GRASS

One of the best and most nutritious grasses for permanent meadows and pastures. Endures close cropping and recovers quickly after cutting. Does best on strong, rich soils. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

RED TOP OR HERD'S GRASS

Red Top, or Herd's Grass, seems to be adapted to all soils and situations succeeding well on light, sandy soils, as well as stiff upland and low ground, and it really succeeds better in moist situations than almost any other grass. After once being established, it thickens and improves year by year, taking possession of the land and increasing in yield and quantity each successive year. In some sections it is highly appreciated for hay, succeeding Clover and Timothy when they have dried out. It is a good forage plant when kept fed close, as it is not relished after it grows up to seed. Sow (if alone) broadcast in Fall or Spring 2 to 3 bushels per acre. Often used as an ingredient for lawn grasses. Postpaid, pkt 10c; 10. 45c; 3 lbs. \$1.30.

BERMUDA GRASS SEED

A perennial, sun-loving grass, spreading extensively by creeping stems, which produce every inch or so roots and new stems. The most valuable of all grasses for grazing can be had from May to the middle of November. Excellent soil binder. Seed is planted 6 or 8 pounds per acre. Postpaid, pkt. 10c; Excellent soil binder. 1b. 70c; 3 lbs. \$2.05.

Buckbee's "Full of Life" Oats FOR FALL SOWING

In the Middle and Southern States the Fall seeding of oats is decidedly to be recommended in preference to Spring seeding. The yields are decidedly better; the Fall-sown oats mature earlier and the land can usually be prepared in better shape in the Fall than in the Spring. Fall seeding interferes less with other work than does Spring seeding, and poorer land and less fertilizer can be used for the Fall-sown crop. The Fall-sown crop also furnishes a cover for the soil during the Winter and prevents washing, and where sown early enough, the oats can be grazed during the open weather in the Winter and early Spring without material injury to the crop afterward.

The Fall-sown oats almost invariably yield more than the Spring oats, owing to their earlier maturity, stronger growth and greater freedom from disease. Even if a part of the stand is lost from Winter killing, the plants which are left stool vigorously, so that the stand at harvest is much better than was apparent in early Spring. Fall-sown oats also grow more vigorously and mature from ten days to two weeks earlier than those sown in the Spring. This early maturing often marks the difference between success and failure, as later maturing grain is more likely to be injured by storms and by rust and other plant diseases.

Oats require comparatively cool weather for their best growth, so that those which mature earliest usually yield best, as conditions are better suited to their development. The early maturity incident to Fall seeding also allows the crop to be removed from the land earlier than Spring seeding, giving more time for the preparation of the soil, seeding and growth of the following crop.

Sometimes called Virginia Gray. This splendid variety has proven immensely popular and satisfactory wherever it has been grown. When sown early in Fall wherever it has been grown. When sown-early in Fall and the roots thoroughly established in the soil, it is very hardy and will stand a great deal of cold. Its stooling propensities are remarkable, and on good soil yields from 50 to 70 bushels per acre. The grain is of a dark gray color, with a distinct stripe and weighs heavier than the ordinary oat. These oats can also be sown in Spring and if sown very early will outyield ordinary Spring Oats. Sown 1½ to 2 bushels per acre. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c. NEW APPLER WINTER OATS

TEXAS RED RUST-PROOF WINTER OATS

A standard favorite not only in Texas, from which it derives its name, but all through the Southern States. Texas Rust-Proof Oat has a very heavy berry, nearly every one has a distinctive beard, protecting it from the sun and enabling it to stand extreme heat. It has short, strong, stiff straw and does not lodge easily. These oats are much used on light, sandy soils and also for low grounds, where oats are likely to rust. These oats can be sown in Fall and Spring. Sow 2 bushels per acre. Postpaid, pkt. 10c; 1b. 25c; 3 lbs. 65c. Spring. Sow 2 bu 1b. 25c: 3 lbs. 65c.

WINTER TURF OATS

This is undoubtedly one of the best all round Oats for planting in the Fall as they afford a valuable pasture the greater part of the Winter and early Spring, thus reducing the quantity of other necessary food. They may be harvested early enough in the Spring for other crops to follow. This variety spreads and stools out enormously, especially when grazed, and if stock is taken off by March will yield a large crop of grain. This is a very popular oat in the South, especially on the light sandy soils of the coast region. Prices, postpaid, pkt. 10c: 1b. 25c: the coast region. Prices, postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

New Appler Winter Oats

See Enclosed Field Seed Price List for Seeds in Quantity.

BONANZA RAP DWARF

Winter and Spring Pasturage.

Makes Splendid Fall, Winter and Spring Pasturage. Fine for Cattle, Sheep and Hogs
Rape for Fall sowing should be put in in August or September. It makes a large-yielding, nutritious, succulent green feed or pasturage all through the Fall, Winter and early Spring. The fattening properties of Rape are said to be very much better than those of clover, and it makes a first-class crop either for sowing alone, or, for grazing during the Fall and Winter, can be sown with Crimson Clover. Rape can be successfully sown both in the Fall and Spring. Early Fall seeding, however, gives the best results. Sown in drills 3 to 5 pounds per acre; or it can be sown broadcast, 6 to 8 pounds per acre. Postpaid, pkt. 10e: 1b: 30e: 3 lbs. 85c. 10c; lb: 30c; 3 lbs. 85c.

DWARF ESSEX RAPE

A standard variety. Not quite so strong and vigorous a grower as Dwarf Bonanza, but never fails to give the best of satisfaction. Fine imported seed; price, postpaid, lb. 25c; 3 lbs. 70c.

GIANT WINTER RYE

A heavy cropper, with stiff straw, large heads and plump, heavy grains. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

NEW ROSEN WINTER RYE

This famous Rye has doubled the yield obtainable with any other kind. Rosen Rye has very stiff straw and very large heads with four rows filled with very large kernels. It is a characteristic of the Rosen that the four rows are always evenly well filled on 99% of the heads, while Common Rye seldom shows a well filled head. We offer genuine, pure, clean, stock. Postpaid, pkt. 10c; lb. 30c; 3 lbs. 85c.

BUCKBEE'S "FULL OF LIFE" Sand or Winter Vetch

(Vicia Villosa) For Fall Sowing

The earliest crop for cutting or plowing under in Spring, being nearly a month earlier than Scarlet Clover, and a full crop can be taken off the land in time for

let Clover, and taken off the land in time planting Spring crops.

It is perfectly hardy throughout the United States, remaining green all Winter, and should be sown during August or September, mixed with Rye, which her, mixed with Rye, which her banker to banker the plants,

ber, mixed with Rye, which serves as a support for the plants, or in Spring with Oats or Barley. It succeeds and produces good crops on poor, sandy soils, though it is more vigorous on good land, and grows to a height of 4 or 5 feet.

It will also prove valuable for Hay crop in the South and dry Western regions, as it may be sown in the Fall. If Vetches are sown alone, without being put in with oats or wheat, they should be sown at the rate of 35 to 40 pounds per acre. It is much better, however, to sow them with Oats or Wheat.

Postpaid; pk lbs. for \$1.00. pkt. 10c; lb. 35c; Sec Inclosed Field Seed Price

New Rosen Rye

BUCKBEE'S "Full of Life"

Northern Grown

WINTER WHEAT

Harvest King

The best, most reliable and most productive varieties, adapted to all sections where Winter Wheat is grown and which we believe will give the best results.

Under favorable conditions anybody can grow crops, but the farmer who grows crops when the Winter destroys and drought ruins is the one who will be at the same old stand when others are gradually being pushed out. In other words the farmer of today who will discard the old varieties of Wheat he has been sowing for years and replace it with a first class article of sterling merit will have Wheat to sell when others have Wheat to buy. This is absolutely true. Many varieties of Wheat which were standard sorts a few years ago are not so reliable as they used to be, hence the necessity of getting others to take their place. While we have grown a great number of different kinds of Winter Wheat on our Rockford Seed Farms we have tested three or four times as many on our Trial Grounds and are glad to report that out of the lot, these three give great promise of usefulness in the Wheat line.

Buckbee's Plant Food

A dressing made expressly plants grown in the house, garden or conservatory; clean and producing early and abundant blossoms, healthy, luxuriant plants. One package is enough for 30 plants for 3 months. Pkt. 25c postpaid

HARVEST KING—A decidedly popular variety. Is very hardy; vigorous growth; great stooling propensities, and for productiveness and good milling qualities it has few equals. It is not liable to blight or rust; the straw is large and stiff and if blown down by a hard storm will not break but head and regain its upright position after the sun shines. Heads are smooth, large and compact and the grain is heavy. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 79c.

HARVEST QUEEN—Another beardless variety, white chaff, golden-yellow grain; a splendid yielder; while not as hardy as our Red Turkey, it has been grown for years with good success in Southern Minnesota. This and Harvest King are the hardiest varieties of beardless Winter Wheats known, giving excellent results in all parts of the Cornbelt. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.

or the Cornoett. Postpaid, pkt. 10c; lb. 25c; 3 lbs. 70c.
BUCKBEE'S RED TURKEY—This is a bearded variety and
is the hardiest known; it can be planted in almost all
parts of the Northwest and is also the best adapted sort
for the states of Nebraska, Kansas, Oklahoma, etc. It is
one of the earliest varieties of Winter Wheat and matures before rust and chinch bugs appear. The heads are
long, well filled with large, flinty grains of reddish-amber
color equal to No. 1 Hard Spring Wheat. Postpaid,
pkt. 10c; lb. 30c; 3 lbs. 85c.

Red Turkey

Egyptian or Perennial Tree

A Single Stalk of Egyptian Onion Sets and a Bunch Ready for Market

BUCKBEE'S "FULL OF LIFE"

ONION SETS FOR FALL PLANTING

Egyptian or Perennial Tree Winter Sets

Onion Sets when planted in the Fall of the year, make one of the best paying crops that can be grown. It is the very first vegetable in the Spring, being ready for the table before anything else can even be planted out of doors. Coming at this time it is not only very desirable for the family table, but any surplus can easily be disposed of at a fancy price.

This variety never forms a large bulb. Its value lies wholly in its special adaptability to produce Green Onions for Spring or Fall use. It is perfectly hardy, and when once set out will come up year after year. Can be planted either in Spring or Fall. We can supply these sets for shipment from September 1st to the following March 1st. This variety increases by producing sets at the top of the stalk and does not produce seed.

not produce seed.

Plant at least a pound this Fall. They take up little room, and when once planted, take care of themselves year after year. Price ½ lb. 20c; lb. 35c; postpaid.

BUCKBEE'S "Full of Life" MUSHROOMS High Grade, Pedigreed, Virgin Spawn

We can safely assure all Mushroom growers, as well as those who have never grown any, but are on the point of trying it, that they will find Sure Crop Spawn to be all that is claimed for it and more. It produces immense crops and the Mushrooms are in demand at the very highest market prices.

GET RELIABLE SPAWN, START RIGHT AND THE RESULTS ARE CERTAIN

Buckbee's Sure Crop Mushrooms

BUCKBEE'S SURE CROP SPAWN

To meet the demand for Buckbee's Sure Crop Spawn, and to provide against deterioration of its producing qualities, our arrangement with the producer is for frequent shipments, which renders it absolutely certain that you will be furnished with spawn, that, if handled properly, will bring big returns.

By mail, postpaid, brick (wgt. about 11/4 lbs.) 45c. At buyer's expense: Bricks 35c; 5 bricks \$1.50; 10 bricks \$2.75; 25 bricks \$5.50; 100 bricks \$20.00.

BUCKBEE'S HIGH GRADE ENGLISH SPAWN

Comes in pressed bricks weighing a pound or more. Price, postpaid, brick (wgt. about 1½ lbs.) 40c. Not prepaid, brick 25c; 5 bricks \$1.05; paid, brick 25e 25 bricks \$3,25.

Buckbee's

Lawn Grass SEED

Makes a Perfect Lawn

HARDY, LUXURIANT. ALWAYS GROWS

BUCKBEE'S WORLD'S FAIR LAWN GRASS SEED

THE VERY BEST LAWN SEED EVER OFFERED

THE VERY BEST LAWN SEED EVER OFFERED

This famous Prize-Winning Lawn Grass is made up of a most evenly balanced combination of native and foreign fine-leaved, deep-rooting grasses that interweave and flourish in different soils and climates, each showing its best strength at seasons different from the others, and thus keeping the lawn vigorous and green from Winter's end to Winter's next advent.

Was awarded the great Columbian Prize at the World's Fair. This mixture was used by the World's Fair authorities to produce the beautiful lawns, which were without question, one of the greatest features of the Fair. It is the Ideal Mixture, and is unrivaled for purity and luxuriance in growth and will give complete satisfaction wherever sown. With ordinary care, anyone can, by using this mixture, secure a beautiful lawn. Complete and explicit directions on "How to Make a Lawn" accompany every package of this seed. The quantity table on this page shows the amount of seed to plant in a given area. Price, postpaid, ½ lb. 30c; lb. 50c; 3 lbs. \$1.45. Large quantities by express or freight, not prepaid, 5 lbs. \$2.25; 10 lbs. \$4.40; 15 lbs. \$6.43; 25 lbs. \$10.50.

SHADY PLACE LAWN GRASS SEED

THE VERY BEST OBTAINABLE—CAREFULLY BLENDED

THE VERY BEST OBTAINABLE—CAREFULLY BLENDED

On nearly all lawns there are unsightly bare spots under the shade of trees, which have baffled all efforts to get into grass, but with this mixture there need be no further difficulty. It is a combination of fine dwarf-growing, evergreen varieties which in their wild or natural state are to be found growing in the woods or other sheltered and shaded spots. Ground that has been densely shaded by trees is frequently "sour" and if the drainage is defective it is apt to be covered with moss and coarse bog grasses. In such cases an application of slake lime, at the rate of one bushel to each thousand square feet, or 40 bushels to the acre, is an excellent corrective and sweetener, but the moss should be first removed.

Sow from 50 to 60 pounds per acre for a new lawn or bowling green; 15 to 20 pounds per acre will be sufficient to improve existing turf. Price, postpaid, ½ lb. 35c; lb. 60c; 3 lbs. \$1.75. By express or freight, not prepaid, 5 lbs. \$2.75; 10 lbs. \$5.40; lb lbs. \$5.75; 25 lbs. \$18.00.

35c; 10, 30c; 5105, 517. By Apress of Argan, 15 15 15s. \$1.95; 25 1bs. \$13.00. VELVET GREEN LAWN GRASS SEED A SPLENDID STANDARD MIXTURE

This special mixture does not include so great a number of expensive grasses as our "World's Fair Mixture," but full provision is made for a succession of growth and a careful blending in proper proportion and thoroughly mixed for quickly producing a permanent, thick and velvety sward of uniform growth and rich green grass free from coarseness. Prices, postpaid, ½ 1b. 25c; 1b. 45c; 3 1bs. \$1.30. By express or freight, not prepaid, 5 1bs. \$2.00; 10 1bs. \$3.95; 25 1bs. \$9.65.

WHITE CLOVER (For Lawns)

This is a valuable pasturage and lawn grass, thrives best on moist, rich ground; does not succeed well on thin soil. Makes excellent forage for Bees. In conjunction with Kentucky Blue Grass it forms a desirable permanent pasture for sheep and cows. Postpaid, pkt. 10c; lb. 70c; 3 lbs. \$2.00.

KENTUCKY BLUE GRASS

EXTRA FANCY

Our "Full of Life" Seed is unsurpassed. Many prefer this to a mixture of grasses, and the fact cannot be denied that a lawn of Blue Grass is magnificent; it takes longer, however, to get it established. Very desirable for wood lawns, pastures, and especially excellent for winter pastures because of its thick, heavy growth. Price, postpaid, pkt. 10c; lbs. 50c; 3 lbs. \$1.45.

Quantity of Lawn Grass Seed to Use

1 lb. for 350 square ft. 5 lbs. for 1750 square ft. 10 lbs. for 3500 square ft. 25 lbs. for one-fourth acre. 50 lbs. for one-half acre. 100 lbs. for one acre.

15 lbs, for 5250 square ft.

Vegetable Roots For Fall Planting

ASPARAGUS ROOTS

Every home and kitchen garden should have a bed of Asparagus. The growing popularity which this most delightful and wholesome vegetable has attained the past few years is remarkable. Without question, it is one of the most favorite and profitable garden crops; and makes a return early in the Spring before any other out-door crop can be marketed, and when a bed is thoroughly established will yield splendid crops for a number of years.

Town Warr Old Banks	Postpaid		Not Prepaid	
Two Year Old Roots	Per Doz.	Per 100	Per 100	Per 1000
Buckbee's Perfection	\$0.40	\$1.95	\$1.45	\$10.00
Bonvallet's Giant		1.90	1.40	9.75
Columbian Mammoth White	.35	1.80	1.30	9.25
Donald's Elmira		1.85	1.35	9.50
New Palmetto		1.75	1.25	9.00
Conover's Colossal	.30	1.65	1.15	8.50
Barr's Mammoth	.30	1.70	1.20	8.75

For success and immediate results we recommend planting the 3 and 4 year old roots.

Owing to the many and numerous requests of our customers for the largest sized roots we have especially grown a fair supply of selected 3 and 4 year roots to meet this demand. Our price, as long as the supply lasts, on any of the 7 varieties listed on this page, only 60c, 182.75 per 100; postpaid. By express or freight, at buyer's expense, \$1.75 per 100; \$15.00 per 1000.

HOW TO GROW ASPARAGUS Complete cultural directions telling how to plant Asparagus Roots furnished free with every order for Asparagus Roots.

Buckbee's Perfection Asparagus

PIE PLANT

Buckbee's New Pineapple

PIE PLANT OR RHUBARB ROOTS

A saving of from two to three years is made by planting the roots.

BUCKBEE'S NEW PINEAPPLE
—Price, by mail, postpaid, 25c
each; \$2.50 per doz. By express
or freight, not prepaid, 20c
each; \$2.00 doz.; \$15.00 per 100.

BUCKBEE'S WESTERN MAR-KET—Price, by mail, postpaid, 20c each; \$2.00 per doz. By express or freight, not prepaid, 15c each; \$1.50 doz.; \$7.00 per 100.

SMALL RHUBARB ROOTS — —Postpaid, 15c each; \$1.50 doz.

HORSE RADISH

Horse Radish rarely produces seed, but is grown from pieces of the roots.

NEW BOHEMIAN OR MALINER KREN Ordinary Horse Radish is a very profitable crop, but with this magnificent new sort from Bohemia the possibilities are wonderful. The roots are so much larger and heavier that the yield is about doubled. Then, too, it matures so much quicker that the crop can be sold in October. The flesh is pure white. Three and four tons per acre can be grown easily. Fine Sets, Dostpaid, 30c per doz.; \$1.75 per 100. By express or freight, not prepaid, 100 for \$1.55; 500 for \$7.25; 1,000 for \$14.00.

COMMON HORSE RADISH
The old-fashioned standard variety. Sets or
Roots, postpaid, 25c per doz.; \$1.55 per 100. By
express or freight, not prepaid, 100 for \$1.35; 500
for \$6.25; 1,000 for \$12.00.
